PARTICIPANT'S REPRESENTATIONS, WARRANTIES AND COVENANTS

1. International Participant's Review of Information and Participation Decision.

1.1. The International Participant acknowledges and understands that it is solely the International Participant's responsibility to read the International Participation Information and any other risks set forth in this Agreement and make a determination to participate in the Program in order to obtain the opportunity to receive the Tokens. The Company's operations, financial condition, and results of operations could be materially and adversely affected by any one or more of those risk factors, as could the underlying value of each International Participant's Tokens, which may lead to the Tokens losing all value. The International Participant and/or the International Participant's advisers, who are not affiliated with and not compensated directly or indirectly by any of the Blockstack Parties, have such knowledge and experience in business and financial matters as will enable them to utilize the information which they have received in connection with the Company, its business and the Network to evaluate the merits and risks of participation, to make an informed decision and to protect the International Participant's own interests in connection with its participation in the Program. The International Participant understands that Wilson, Sonsini, Goodrich & Rosati, P.C. acts as counsel only to the Company and does not represent the International Participant or any other person by reason of any receipt of the Tokens.

1.2. The International Participant is participating in the Program without being furnished any offering literature other than the International Participation Information, and is making this participation decision solely in reliance upon the information contained in the International Participation Information and upon any investigation made by the International Participant or the International Participant's advisers, but not on any recommendation to participate in the Program in order to obtain the opportunity to receive the Tokens by any Blockstack Party.

1.3. The International Participant's participation in the Program is consistent with the purposes, objectives and cash flow requirements of the International Participant.

1.4. The International Participant understands that the Tokens are a speculative investment that involves a substantial degree of risk of loss, and the International Participant understands and is fully cognizant of the risk factors related to the Program. The International Participant has received and has had the opportunity to review the International Participation Information including the risk factors set forth in the Offering Circular. Neither the Company nor anyone on its behalf has made any representations (whether written or oral) to the International Participant (i) regarding the future value or utility of the Tokens or (ii) that the past business performance and experience of the Blockstack Parties or the Network will in any way predict the current or future value or utility of the Tokens.

1.5. The International Participant understands that any forecasts or predictions as to the Company's or the Network's performance are based on estimates, assumptions and forecasts that the Company believes to be reasonable but that may prove to be materially incorrect, and no assurance is given that actual results will correspond with the results contemplated by the various forecasts.

1.6. At no time has it been expressly or implicitly represented, guaranteed or warranted to the International Participant by the Company, any other Blockstack Party, or any other person that:

1.6.1. a percentage of profit and/or amount or type of gain or other consideration will be realized as a result of this participation; or

1.6.2. that past performance or experience in any way indicates the predictable or probable results of the ownership of the Tokens, the Network or the overall venture.

1.7. The receipt of Tokens (i) does not provide the International Participant with rights of any form with respect to the Company or its revenues or assets, including, but not limited to, any voting, distribution, redemption, liquidation, proprietary (including all forms of intellectual property), or other financial or legal rights; (ii) is not a loan to Company; (iii) does not create any binding obligation enforceable against the Company with respect to the Tokens following their delivery; and (iv) does not provide the International Participant with any ownership or other interest in Company or the Network.

1.8. The Company retains all current and future right, title and interest in all of the Company's intellectual property, including, without limitation, inventions, ideas, concepts, code, discoveries, processes, marks, methods, software, compositions, formulae, techniques, information and data, whether or not patentable, copyrightable or protectable in trademark, and any trademarks, copyright or patents based thereon. The International Participant may not use any of Company's intellectual property for any reason without Company's prior written consent.

1.9. The International Participant represents and agrees that none of the Blockstack Parties have recommended or suggested the acquisition of Tokens to the International Participant.

1.10. The International Participant represents that it has sufficient knowledge, understanding, and experience, either independently or together with my purchaser representative(s), in financial and business matters, and of the functionality, usage, storage, transmission mechanisms, and other material characteristics of cryptographic tokens, token wallets and other token storage mechanisms, public and private key management, blockchain technology, and blockchain-based software systems, including the Network, to understand the terms of this Agreement and the offering materials, and such knowledge, understanding, and experience enables me to evaluate the merits and risks of purchasing the Tokens.

2. International Participant's Representations Related to Participation in the Program.

2.1. The International Participant, if an entity, is, and shall at all times while it holds any Tokens remain, duly organized, validly existing and in good standing under the laws of the state or other jurisdiction of its incorporation or organization (other than the United States of America), having full power and authority to own its properties and to carry on its business as conducted. The International Participant, if a natural person, is eighteen years of age or older and competent to enter into a contractual obligation. The principal place of business or principal residence of the Participant is as entered on the International Participant Questionnaire.

2.2. The International Participant has the requisite power and authority to deliver this Agreement, perform his, her or its obligations set forth in this Agreement, and consummate the transactions contemplated in this Agreement. The International Participant has duly executed and delivered this Agreement and has obtained the necessary authorization to execute and deliver this Agreement and to perform his, her or its obligations in this Agreement and to consummate the transactions contemplated in this Agreement. This Agreement, assuming the due execution and delivery hereof by the Company, is a legal, valid and binding obligation of the International Participant enforceable against the International Participant in accordance with its terms.

2.3. The International Participant is participating in the Program for and purchasing the Tokens solely for the International Participant's own account, and not with a view toward or in connection with resale, distribution (other than to its shareholders or members, if any), subdivision or fractionalization

thereof. The International Participant has no agreement or other arrangement, formal or informal, with any person or entity to sell, transfer or pledge any part of the Tokens, or which would guarantee the International Participant any profit, or insure against any loss with respect to the Tokens, and the International Participant has no plans to enter into any such agreement or arrangement.

2.4. The International Participant represents and warrants that the execution and delivery of this Agreement, the consummation of the transactions contemplated in this Agreement and the performance of the obligations outlined in this Agreement will not conflict with or result in any violation of or default under any provision of any other agreement or instrument to which the International Participant is a party or any license, permit, franchise, judgment, order, writ or decree, or any statute, rule or regulation, applicable to the International Participant. The International Participant confirms that the consummation of the transactions envisioned in this Agreement, including, but not limited to, the International Participant's participation in the Program, will not violate any foreign law and that such transactions are lawful in the International Participant's country of citizenship and residence.

2.5. The International Participant is able to bear the economic risk of its participation in the Program and, without limiting the generality of the foregoing, is able to hold the Tokens for an indefinite period of time. The International Participant has adequate means to provide for the International Participant's current needs and personal contingencies and has a sufficient net worth to sustain the loss of the International Participant's entire participation in the Program.

2.6. Neither (i) the International Participant, (ii) any of its directors, executive officers, other officers that may serve as director or officer of any company in which it invests, general partners or managing partners, nor (iii) any beneficial owner of the Company's voting equity securities (in accordance with Rule 262 of the Securities Act) held by the International Participant is subject to any Disqualifying Event¹ except for Disqualifying Events covered by Rule 262(b)(2) or (3) or Rule 262(c) under the Securities

2.7. The International Participant understands that no state or federal authority has scrutinized this Agreement or the Tokens offered pursuant hereto, has made any finding or determination relating to the fairness for participation in the Program, or has recommended or endorsed the Tokens, and that the Tokens have not been registered under the Securities Act or any state securities laws, in reliance upon exemptions from registration thereunder.

2.8. International Participant represents and warrants that International Participant: (a) (1) is not located or domiciled; (2) does not have a place of business; or (3) is not conducting business (any of which would make Participant a “**Resident**”) in a jurisdiction in which access to or use of the Network and the Tokens is prohibited by applicable law, decree, regulation, treaty, or administrative act, (b) is not a Resident of, or located in, a jurisdiction that is subject to U.S. or other sovereign country sanctions or embargoes, or (c) is not an individual, or an individual employed by or associated with an entity, identified on the U.S. Department of Commerce’s Denied Persons or Entity List, the U.S. Department of Treasury’s Specially Designated Nationals or Blocked Persons Lists, or the U.S. Department of State’s Debarred Parties List. International Participant further represents and warrants that if International Participant is purchasing the right to receive Tokens on behalf of a legal entity: (1) such legal entity is duly organized and validly existing under the applicable laws of the jurisdiction of its organization, and (2) International Participant is duly authorized by such legal entity to act on its behalf.

3. Information Provided by International Participant.

Participant shall immediately notify the Company of any change in any statement made in this Agreement prior to the International Participant's receipt of the Company's acceptance of this Agreement. The representations and warranties made by the International Participant may be fully relied upon by the Company, and any other Blockstack Party, and by any investigating party relying on them. The International Participant acknowledges and agrees that the International Participant shall be liable for any loss, liability, claim, damage and expense whatsoever (including all expenses incurred in investigating, preparing or defending against any claim whatsoever) arising out of or based upon any inaccuracy in the representations and warranties in the information provided by the International Participant.

3.2. The International Participant confirms that all information and documentation provided to the Company, including but not limited to all information regarding the International Participant's identity, is true, correct and complete. The International Participant is currently a bona fide resident of the state or jurisdiction set forth in the current address provided to the Company. 3.3. The representations, warranties, agreement, undertakings and acknowledgments made by the International Participant in this Agreement will be relied upon by the Blockstack Parties and counsel to the Company in determining, among other things, whether to allow the International Participant to receive Tokens. The representations, warranties, agreements, undertakings and acknowledgments made by the International Participant in this Agreement shall survive the International Participant's participation in the Program in order to obtain the opportunity to receive Tokens. The International Participant agrees to notify the Company immediately if any of the International Participant's representations, warranties and covenants contained in this Agreement become untrue or incomplete in any respect.

3.4. The Blockstack Parties may rely conclusively upon and shall incur no liability in respect of any action taken upon any notice, consent, request, instructions or other instrument believed in good faith to be genuine or to be signed by properly authorized persons of the International Participant.

4. Rights to Use International Participant Information.

4.1. The International Participant agrees and consents that the Blockstack Parties and any administrator appointed from time to time with respect to the Company (the "**Administrator**") may obtain, hold, use, disclose, transfer, and otherwise process the International Participant's data including but not limited to the contents of the International Participant Agreements:

4.1.1. as the Blockstack Parties or the Administrator reasonably deem necessary or appropriate to facilitate the acceptance, management and administration of the International Participant's participation in the Program in order to obtain the opportunity to receive Tokens, on an ongoing basis;

4.1.2. to provide notice of, and/or to seek consent to uses or disclosures of such data for specific purposes;

4.1.3. for any specific purposes where the International Participant has given specific consent to do so;

4.1.4. to carry out statistical analysis and market research, whereby the products of such statistical analysis or market research are not disclosed outside of the Blockstack Parties or the Administrator on a basis in which the International Participant is identifiable without the International Participant's specific consent;

4.1.5. as the Blockstack Parties or the Administrator reasonably deem necessary or appropriate to comply with legal process, court orders, or other legal, regulatory, or self-regulatory requirements, requests, or investigations applicable to the Blockstack Parties, the Administrator or the International Participant, including, but not limited to, in connection with anti-money laundering and similar laws, or to establish the availability under any applicable law of an exemption from registration of Tokens or to establish compliance with applicable law generally by the Blockstack Parties;

4.1.6. for disclosure or transfer to third parties, including the International Participant's financial adviser (where appropriate), regulatory bodies, auditors or technology providers to any of the Blockstack Parties or the Administrator, as reasonably necessary for the purposes described in this Section 4.1; and

4.1.7. for any other purposes described in the Privacy Notice or the International Participant Agreements.

4.2. The International Participant agrees and consents to disclosure by the Blockstack Parties or the Administrator to relevant third parties of information pertaining to the International Participant in respect of disclosure and compliance policies or information requests related thereto.

4.3. The International Participant authorizes the Blockstack Parties and any of their agents to disclose the International Participant's nonpublic personal information to comply with regulatory and contractual requirements applicable to the Blockstack Parties. Any such disclosure shall, to the fullest extent permitted by law, be permitted notwithstanding any privacy policy or similar restrictions regarding the disclosure of the International Participant's nonpublic personal information.

5. Relationship Between International Participant and the Blockstack Parties.

5.1. The International Participant acknowledges and agrees that the receipt of the Tokens pursuant to this Agreement and the International Participant's participation in the Program is an arms-length transaction between the International Participant and the Company. In connection with the receipt of the Tokens and the International Participant's participation in the Program, neither the Company nor any other Blockstack Party is acting as the International Participant's agent or fiduciary. The Blockstack Parties assume no advisory or fiduciary responsibility in connection with the Tokens. The Blockstack Parties have not provided the International Participant with any legal, accounting, regulatory or tax advice with respect to the Tokens, and the International Participant has consulted its own respective legal, accounting, regulatory and tax advisers to the extent the International Participant deems appropriate.

6. Regulatory Limitations and Requirements.

6.1. The International Participant understands acknowledges and agrees that the distribution of Tokens contemplated in this Agreement is not fully registered with the SEC because it is being made in reliance on Regulation A under the Securities Act, which exempts the Company from certain reporting and other requirements related to the Company, the Tokens and their sale, and that the Company is not registered or licensed with any federal or state regulator as an investment adviser, broker-dealer, money services business, money transmitter, or virtual currency business, or under the Investment Advisers Act of 1940, as amended (the "**Advisers Act**") or the Investment Company Act of 1940 ("**1940 Act**"). As a result, the International Participant will not be afforded the full set of protections provided to the clients and customers of such entities under the Securities Act, the Securities Exchange Act of 1934, as amended (the "**Exchange Act**"), the Advisers Act or the 1940 Act, or any money services business, money transmitter, or virtual currency laws.

6.2. The International Participant understands and agrees that if, at any time, it is determined that the Company is not in compliance with the Securities Act, the Exchange Act, the Advisers Act, or the 1940 Act, or any laws or regulations applicable to money transmitters, money services businesses, or virtual currency businesses, or is otherwise not in compliance with applicable law, the Company may take any corrective action it determines is appropriate, in its sole and absolute discretion.

6.3. The International Participant understands that the Tokens are not legal tender, are not backed by the government, and accounts and value balances are not subject to Federal Deposit Insurance Corporation or Securities Purchaser Protection Corporation protections.

6.4. The International Participant understands that he or she may be barred from receiving Tokens if the International Participant is (i) an employee benefit plan that is subject to the fiduciary responsibility standards and prohibited transaction restrictions of part 4 of Title I of U.S. Employee Retirement Income Security Act of 1974, as amended (“**ERISA**”), (ii) any plan to which Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”) applies, (iii) a private investment fund or other entity whose assets are treated as “plan assets” for purposes of ERISA and Section 4975 of the Code or (iv) an insurance company, whose general account assets are treated as “plan assets” for purposes of ERISA and Section 4975 of the Code. The International Participant has notified the Company if it falls into (i) – (iv) of this paragraph.

6.5. The International Participant understands and acknowledges that:

6.5.1. if it is resident of, or located in, the European Economic Area the Tokens are not considered "transferable securities" for the purposes of Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU ("**MiFID II**"). Accordingly, there is no requirement to produce a prospectus in relation to their offering and the International Participant will not be afforded the same protections they would have been afforded had a prospectus been approved by the competent authority of the applicable member state of the European Economic Area.

6.5.2. if it is resident of, or located in, the United Kingdom the Tokens are not considered to be a controlled investment and the Offering Circular does not constitute a financial promotion for the purposes of FSMA. Accordingly, the Offering Circular has not been approved by an “Authorised Person” under Section 21 of the UK Financial Services and Markets Act 2000 and nor has it been authorised by the UK Financial Conduct Authority. Accordingly, the International Participant will not be afforded the same protections they would have been afforded had this been an approved financial promotion.

6.5.3. if it is resident of, or located in, Germany, it is the Company’s opinion that the Tokens are not considered to be shares in an investment fund for the purpose of the German Capital Investment Code (*Kapitalanlagegesetzbuch* – “**KAGB**”) or securities for the purpose of the German Securities Trading Act (*Wertpapierhandelsgesetz* – “**WpHG**”) the German Securities Prospectus Act (*Wertpapierprospektgesetz* – “**WpPG**”). Germany’s Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht* – “**BaFin**”) may disagree with these opinions. Further, the Tokens are not considered to be investment products for the purpose of the German Investment Products Act (*Vermögensanlagegesetz* – “**VermAnlG**”). Accordingly, a prospectus in relation to the Tokens has not been produced and the International Participant will not be afforded the same protections they would have been afforded had a prospectus been approved by BaFin. BaFin will likely take the view that the Tokens constitute units of account for the purpose of the German Banking Act (*Kreditwesengesetz* – “**KWG**”). Further, the Tokens are likely not to qualify as e-money for the purpose of the German Payment Supervision Act (*Zahlungsdiensteaufsichtsgesetz* – “**ZAG**”). The Company should not require a license by BaFin pursuant to

the KWG or the ZAG. Accordingly, the International Participant will not be afforded the same protections they would have been afforded had the Company's business model been analysed by BaFin as part of a licensing approval procedure. The Company is not subject to German anti-money-laundering regulation ("**German AML Regulation**"). Accordingly, the International Participant will not be afforded the same protections they would have been afforded was the Company subject to German AML Regulation.

6.5.4. if it is resident of, or located in, France, the Tokens are not considered to be financial instruments within the meaning of article L. 211-1 I of the French Monetary and Financial Code and consequently this Agreement does not constitute an offer or solicitation to acquire a financial instrument under French laws. In addition, the Tokens are not considered to qualify as electronic money within the meaning of article L. 315-1 of the French monetary and financial code. Accordingly, this Agreement, the US Offering Circular and the Offering Materials or any other document related to the Tokens have not been submitted, filed, registered with or reviewed in any way whatsoever by the French financial markets authority or by any public authority in France and the Tokens have not been approved by any public authority in France. The International Participant also understands and acknowledges that no protection nor entitlement to claim rights are granted with respect to participation in or purchase of the Tokens under the regulations and investors protection rules applicable in France with respect to the issuance, distribution and provision of services in relation to financial instruments or electronic money under French laws, which will not apply with regards to the Tokens. Notwithstanding the above, due to potential changes in the French regulatory framework applicable to the Tokens in the future, the International Participant hereby understands and acknowledges that the Company reserves the right, at any time and at its sole discretion, to decide to register, obtain a license or a visa or otherwise take action with the French public authorities with respect to the Tokens, which may have an impact, positive or negative, on the regulatory framework applicable in France to the Tokens and on the rights that may be available to the International Participant in this respect. The International Participant hereby represents and warrants not to take any action or submit any claim in France against the Company, should the Company decide to take any action with the French public authorities as indicated above.

6.5.5. if it is resident of, or located in, Singapore, the Tokens are not considered to be "securities," units in a "collective investment scheme" or "business trusts," in each case as defined under Singapore's Securities and Futures Act (Cap. 289) (the "SFA"). Accordingly, the offer of Tokens is not regulated under the SFA and there is no requirement for the offer of the Tokens to be accompanied by any prospectus or for any prospectus to be lodged with the Monetary Authority of Singapore ("MAS"). None of the Tokens, the International Agreement, the International Supplement or the US Offering Circular has been reviewed, approved or authorized by MAS. The International Participant also should be aware that investor protection safeguards that apply to purchasers of investment products that are authorized by MAS will not be available to the International Participant in relation to the Tokens.

6.5.6. if it is resident of, or located in, Hong Kong, the Tokens are not considered "securities" for the purposes of the Securities and Futures Ordinance (Cap. 571) and are not considered "shares" or "debentures" for the purposes of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32). Accordingly, none of the Tokens, this Agreement, the International Supplement or the US Offering Circular has been reviewed, approved or authorized by the Hong Kong Securities and Futures Commission ("SFC"). 6.6.4. The International Participant agrees that, if at any time it is discovered that any of the foregoing anti-money laundering representations are incorrect, or if otherwise required by applicable laws or regulations, the Company may undertake appropriate actions, and the International Participant agrees to cooperate with such actions, to ensure compliance with such laws or regulations.

6.6.5. The International Participant acknowledges and agrees that the Company, in complying with anti-money laundering statutes, regulations and goals, may file any information with governmental and law enforcement agencies to identify transactions and activities that the Company or any other Blockstack Party or their agents reasonably determines to be suspicious, or as otherwise required by law.

6.8. The International Participant understands and agrees that if the Company were deemed to be a money transmitter or money services business, it would be subject to significant additional regulation that could lead to significant changes with respect to the Network, how the Tokens are structured, how they are purchased and sold, and other issues, and would greatly increase the Company's costs in creating and facilitating transactions in the Tokens. It could lead to the termination of the Tokens. Further, a regulator could take action against the Company and Blockstack Parties if it views the Tokens and the Network as a violation of existing law. If an International Participant is a resident of a state that requires the Company to obtain a license to conduct a virtual currency business, the Company will not allow the International Participant to receive the Tokens and participate on the Network. Further, any prohibited Token transaction inconsistent with this Section 6.9.1 may be unable to be rescinded.

Further, a regulator could take action against the Company and the Blockstack Parties if it views the Tokens and the Network as a violation of existing law. Any of these outcomes would negatively affect the value of the Tokens and/or could cause the Company to cease operations. International Participants are strongly encouraged to seek independent legal advice regarding their individual circumstances in determining whether they are eligible to acquire the Tokens.

7.6. By executing this Agreement, the Participant understands and acknowledges that (i) the Company (or any other Blockstack Party) may be required to provide the identities of the Participant's direct and indirect beneficial owners to a governmental entity, and (ii) the Participant hereby waives any provision of law and/or regulation of any jurisdiction that would, absent a waiver, prevent the Company from compliance with the foregoing and otherwise with applicable law as described in this Section 7.

7.7. The Participant confirms that the Participant has been advised to consult with the Participant's independent attorney regarding legal matters concerning the Company and to consult with independent tax advisers regarding the tax consequences of purchasing Tokens. The Participant acknowledges that Participant has received a copy of the Offering Circular including, but not limited to, *U.S. Federal Income Tax Considerations*, regarding certain tax consequences of purchasing Tokens, subject to adoption of new laws or regulations or amendments to existing laws or regulations. The Participant acknowledges and agrees that none of the Blockstack Parties are providing any warranty or assurance regarding the tax consequences to the Participant by reason of the Participant's participation in the Program.

8. Transfer and Storage of Personal Data.

8.1. The International Participant understands and agrees that in connection with the services provided by the Company, its personal data may be transferred and/or stored in various jurisdictions in which the Blockstack Parties have a presence, including in or to jurisdictions that may not offer a level of personal data protection equivalent to the International Participant's country of residence.

8.2. The International Participant further understands and agrees that, although the Blockstack Parties will use their reasonable efforts to maintain the confidentiality of the information provided in the International Participant Questionnaire, the Blockstack Parties may disclose or transfer the Participant Agreements, and disclose or transfer other data of an International Participant. Any disclosure, use, storage or transfer of information for these purposes shall not be treated as a breach of any restriction upon the disclosure, use, storage or transfer of information imposed on any person by law or otherwise.

9. Consent to Electronic Delivery of Notices, Disclosures and Forms.

9.1. The International Participant understands that, to the fullest extent permitted by law, any notices, disclosures, forms, privacy statements, reports or other communications (collectively, “**Communications**”) regarding the Company, the International Participant’s participation in the Program for Tokens (including annual and other updates and tax documents) may be delivered by electronic means, such as by e-mail. The International Participant hereby consents to electronic delivery as described in the preceding sentence. In so consenting, the International Participant acknowledges that e-mail messages are not secure and may contain computer viruses or other defects, may not be accurately replicated on other systems or may be intercepted, deleted or interfered with, with or without the knowledge of the sender or the intended recipient. The International Participant also acknowledges that an e-mail from the Blockstack Parties may be accessed by recipients other than the International Participant and may be interfered with, may contain computer viruses or other defects and may not be successfully replicated on other systems. No Blockstack Party gives any warranties in relation to these matters. The International Participant further understands and agrees to each of the following:

9.1.1. Other than with respect to tax documents in the case of an election to receive paper versions, none of the Blockstack Parties or the Administrator will be under any obligation to provide the International Participant with paper versions of any Communications.

9.1.2. Electronic Communications may be provided to the International Participant via e-mail or a website of a Blockstack Party upon written notice of such website’s internet address to such International Participant. In order to view and retain the Communications, the International Participant’s computer hardware and software must, at a minimum, be capable of accessing the Internet, with connectivity to an internet service provider or any other capable communications medium, and with software capable of viewing and printing a portable document format (PDF) file created by Adobe Acrobat. Further, the International Participant must have a personal e-mail address capable of sending and receiving e-mail messages to and from the Blockstack Parties or the Administrator. To print the documents, the International Participant will need access to a printer compatible with his or her hardware and the required software.

9.1.3. If these software or hardware requirements change in the future, a Blockstack Party will notify the International Participant through the Site or other written notification.

9.1.4. To facilitate these services, the International Participant must provide the Company with his or her current e-mail address and update that information as necessary. Unless otherwise required by law, the International Participant will be deemed to have received any electronic Communications that are sent to the most current e-mail address that the International Participant has provided to the Company in writing.

9.1.5. None of the Blockstack Parties or the Administrator will assume liability for non-receipt of notification of the availability of electronic Communications in the event the International Participant’s e-mail address on file is invalid; the International Participant’s e-mail or Internet service provider filters the notification as “spam” or “junk mail”; there is a malfunction in the International

Participant's computer, browser, internet service or software; or for other reasons beyond the control of the Blockstack Parties or the Administrator.

9.2. Solely with respect to the provision of tax documents by a Blockstack Party, the International Participant agrees to each of the following:

In the event that the International Participant files or enters bankruptcy, insolvency or other similar proceeding, the International Participant agrees to use the best efforts possible to avoid any Blockstack Parties being named as a party or otherwise involved in the bankruptcy proceeding. Furthermore, this Agreement should be interpreted so as to prevent, to the maximum extent permitted by applicable law, any bankruptcy trustee, receiver or debtor-in-possession from asserting, requiring or seeking that (i) the International Participant be allowed to return the Tokens to the Company for a refund or (ii) the Company being mandated or ordered to redeem or withdraw Tokens held or owned by the International Participant.
